Dependable, analytical production specialist with a background in process analysis and production streamlining. Specializes in optimizing production with modern operations solutions. Veteran of the U.S. Air Force. Looking to increase operational efficiency within agile, cross-functional teams.

## ABILITY

- Project Management
- Root cause problem analysis
- Systems/Software development
- Proficient with HTML/CSS/JS/SQL
- Excel expert
- Advanced supply chain ERPs
- Production Planning
- Continuous Improvement

## Employment History

03/2022 - Present      Process Technician      Brunswick Corporation - Boateka, Merritt Island, FL

- Created production planning system that increased throughput by over 50%
- Revolutionized parts ordering process, increasing efficiency by over 100% and causing significant increases in accuracy
- Designed and developed hybrid ERP system for Operations on PowerApps platform, including logic gates and data-oriented process automation to drastically reduce manual data entry and internal handoffs
- Partnered with Director of Operations to revamp Quality Control systems, reducing defects/unit by over 70%

07/2018 - 01/2022      QA Profiler      Walmart Distribution Ctr, Cocoa, FL

- Re-profiled item layout to optimize travel distance for forklift operators
- Successfully led projects to identify and address root causes of several quality control issues
- Optimized profile layout to maximize efficiency for orderfillers, increasing both productivity and morale.
- Identified errors in engineering standards resultant from incorrect slot heights and internal system settings, and led the effort to correct those errors

07/2015 - 05/2018      Hazardous Material Removal      United States Military, Wichita Falls, TX

- Led team in training for contingencies and maintaining battle readiness
- Successfully executed render-safe procedures on multiple pieces of explosive ordnance
- While waiting for a top-secret clearance, guided new trainees on mental and physical preparation for prelim courses and gave individualized advice on training programs to maximize pass rate within the course

## Education and Training

Full-Stack web development certificate - UCF Coding Boot Camp (2022-2023)
